Tariff 15-A – Household Goods

Section 2 – Mileage Rated Shipments

Original Page No. 63

Correction No. 32

ITEM NO. 200 -- MILEAGE RATES

1. Mileage rates apply only on shipments moving more than 35 miles. For rates on shipments moving less than 35 miles see Items 230 (Hourly Rates) and 235 (Labor Charges).
2. Rates are stated in cents to be charged per pound shipped. To determine actual transportation charges, multiply the weight of the shipment in pounds times the rate and then round the answer to the nearest cent.

Example A shipment of 8,101 pounds being transported 50 miles results in a transportation charge of \$1093.64. (8,101 pounds x .1350 per pound = \$1,093.635 which rounds to \$1,093.64)

3. Rates are based on loaded distance. Loaded distance is the distance between the loading point (origin) of the shipment and the unloading point (destination), the distance the carrier's vehicle actually transports the customer's goods.

Refer to following pages for tables of mileage rates

Refer to last page of tariff for explanation of abbreviations and/or symbols on this page.
